Explanation

The rental contract can only be cancelled after you have rented the premises for a minimum of one year. The period of notice amounts to a minimum of one calendar month; a cancellation of your rental contract must therefore occur at the latest before the first day of the month, which precedes the month in which you wish to cancel your contract.

The cancellation of a rental contract is not non-binding; whenever you have given notice of a rental contract, this cannot be retracted unilaterally by you.

* Completion is obligatory; it may be necessary to take up contract with you subsequently, for instance whenever overpayments of service costs have to be paid back.

** : If you are married, or if the rental contract is made out on the name of your partner, then the cancellation notice must be signed by both parties.

After you have submitted your cancellation, you will receive a confirmation from us that includes additional information about your cancellation. We will, in all instances, attempt to once more rent the apartment as quickly as possible. For the purpose of inspecting the apartment, potential tenants may therefore be put into direct contact with you.
